Online Trainers Training course

Higher education professors

Innovation

Challenges

‘Contextualized instructional design’

Assessment

Continuous quality improvement

Science-based approach

Methodological Strategy

A survey to be completed by trainees immediately after the course

In depth knowledge of the profile of the trainees;

To know the perception of the trainees about the organization of the course;

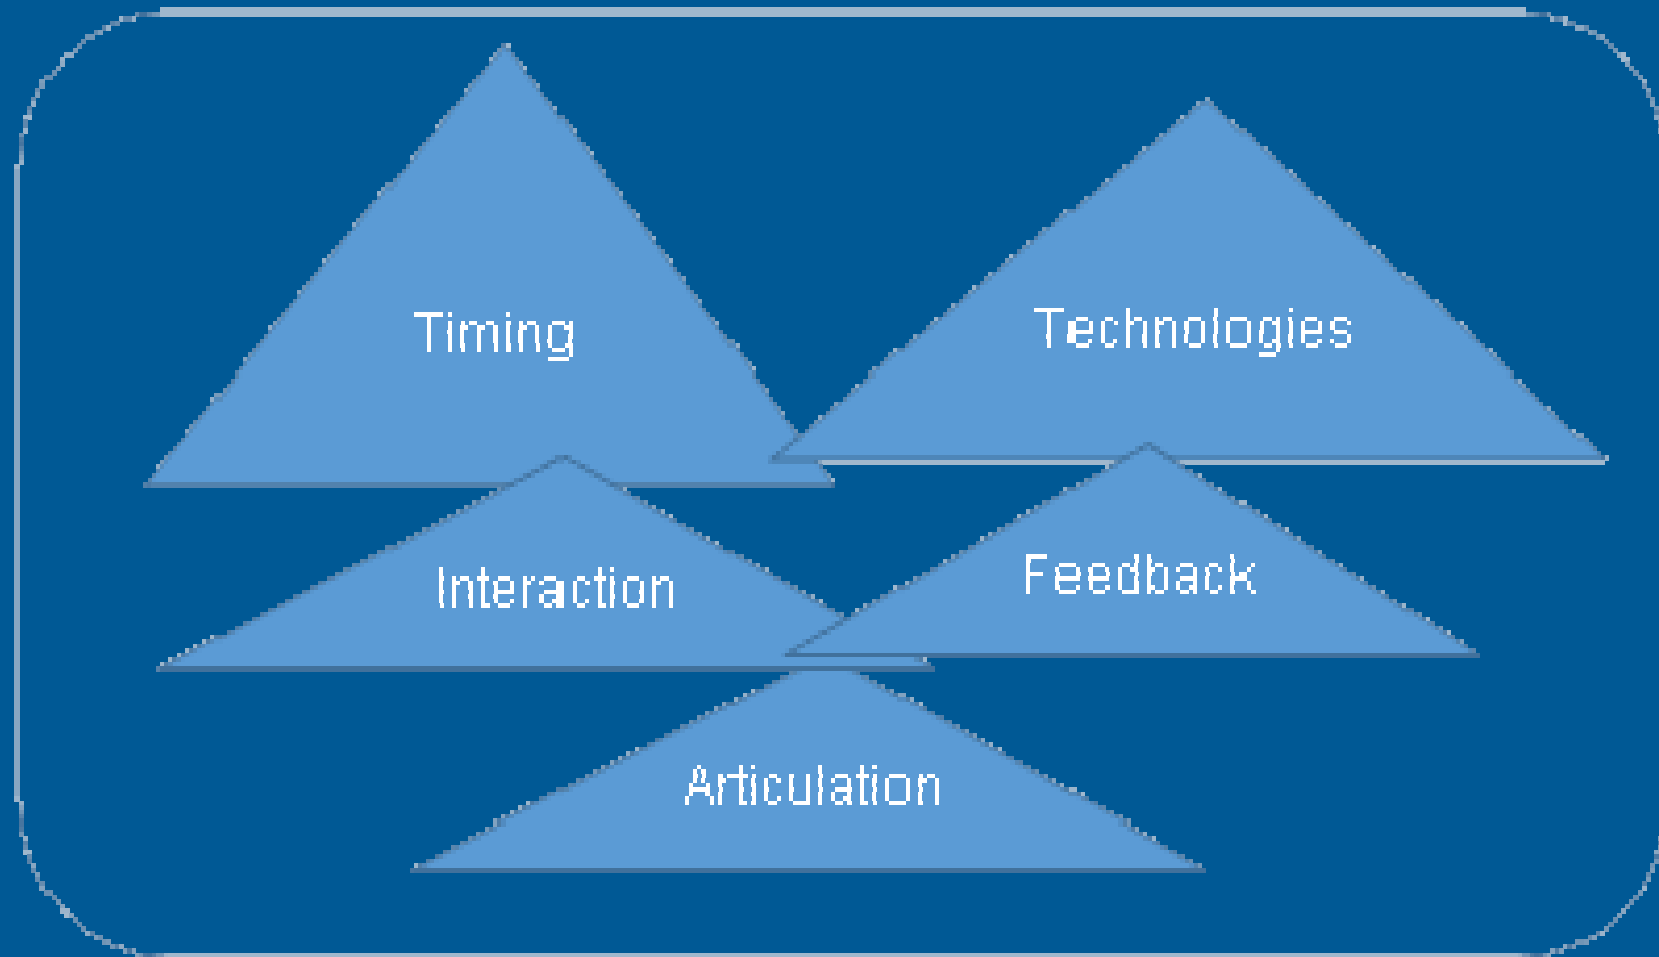

To know the trainees' opinions about pedagogical usability of the course;

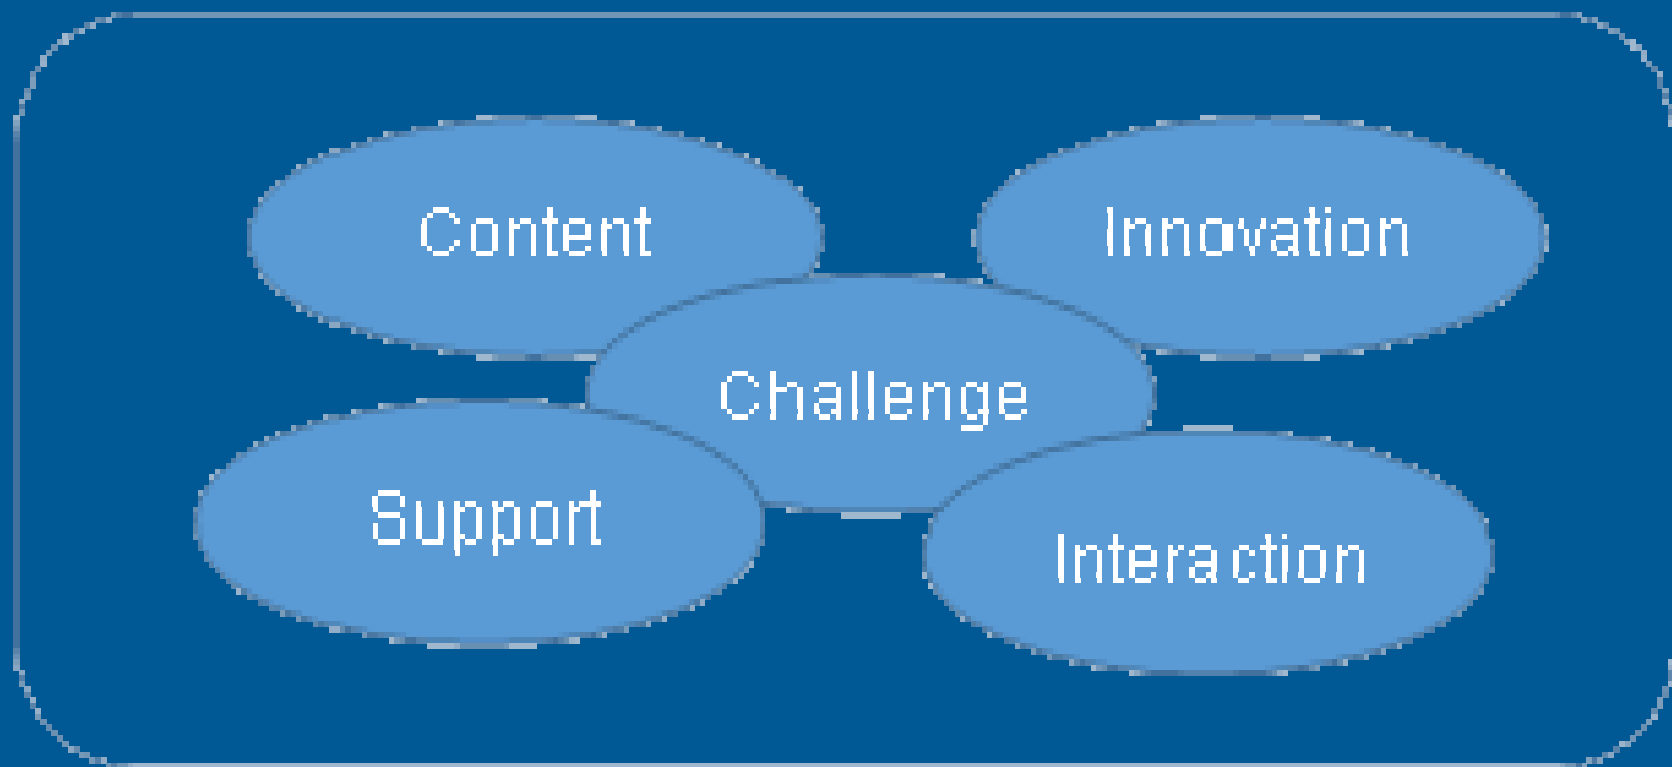

To identify weaknesses, strengths and opportunities for improvement of the course.

Weaknesses

Strengths

Opportunities

time managing

technologies potentialities

interaction

feedback

Conclusion

Time management

Assessment and quality
