

Principles of Ecological Approach in Education and Health Care

Ruta Renigere

Institute of Education and Home Economics

Latvia University of Agriculture

... evolving our consciousness is not something we do only for ourselves – it is something we also do for others ... for all others, and for the Earth

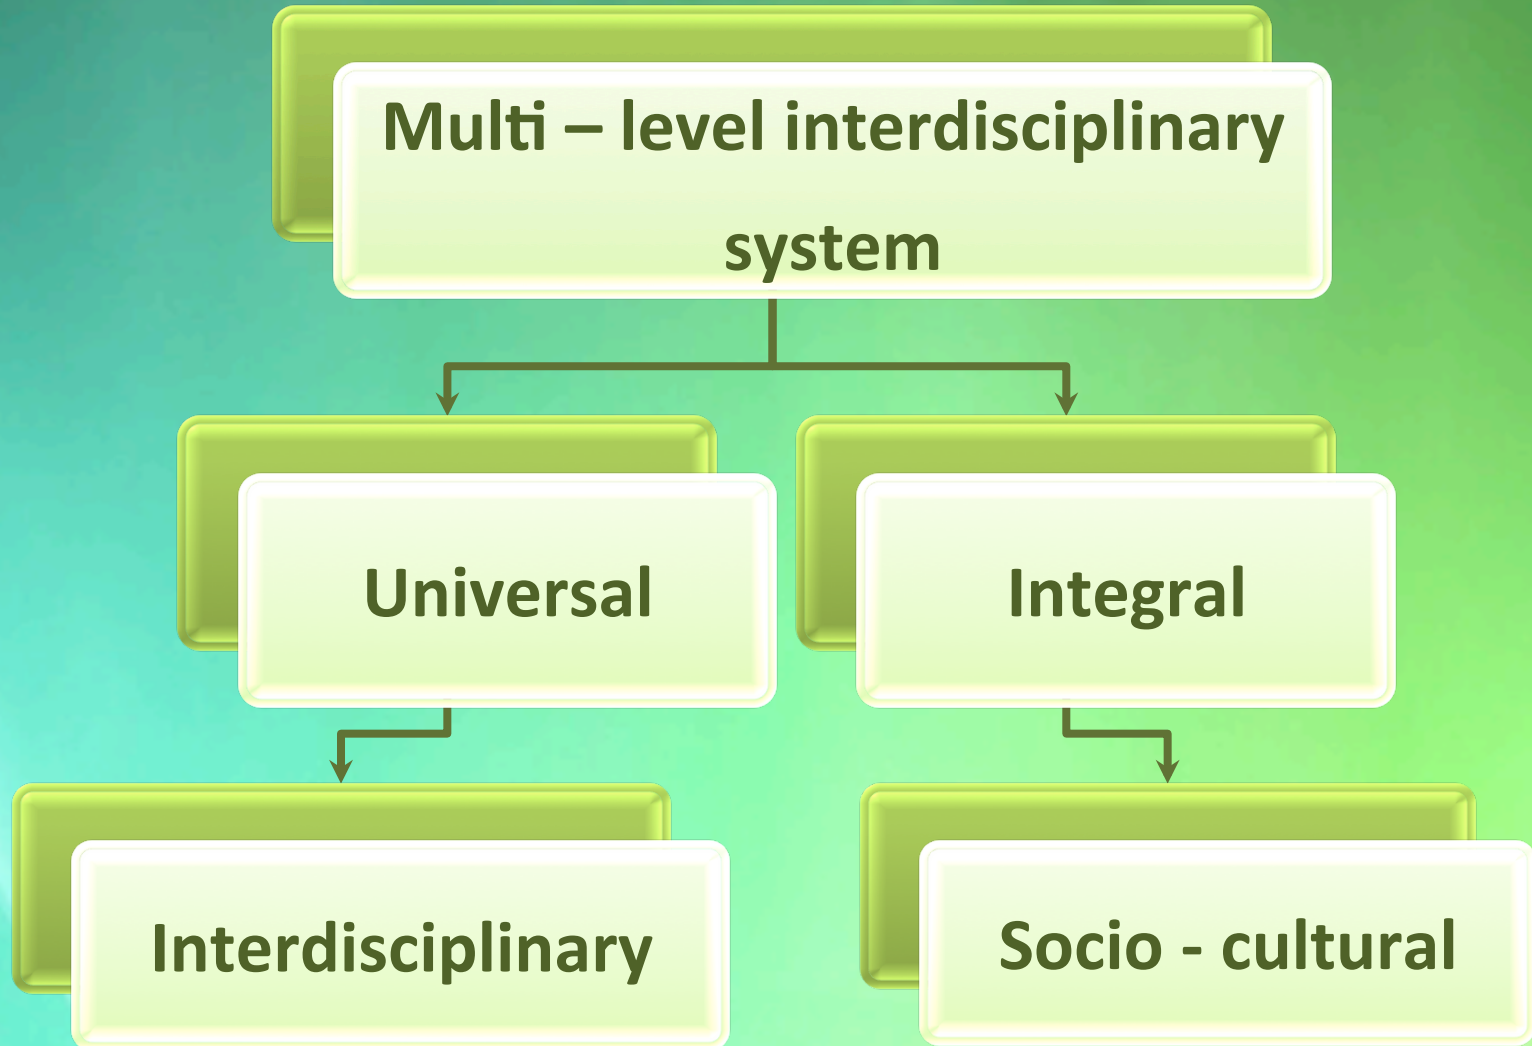

Ervin László

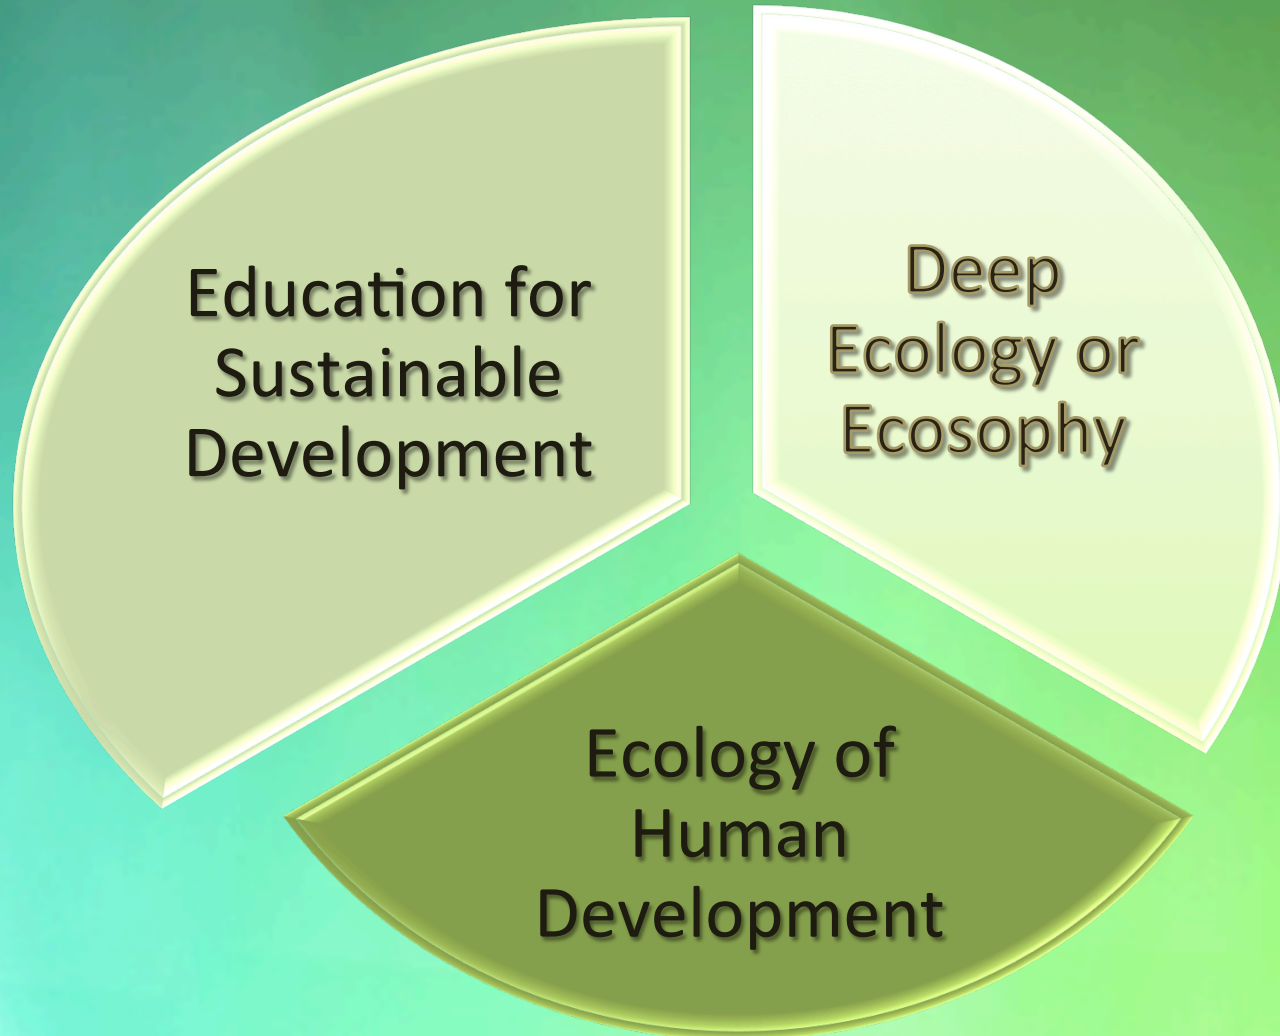

Principles of Ecological Approach Outline

- Ecological Approach in social, educational and health care environment
- Building blocks of the principles of the Ecological Approach
- Brief overview of the principles of the Ecological Approach

Ecological Approach in Education and Health Care

Basic Building Blocks

Structure of the Principles of the Ecological Approach

Process

Person

Context

Time

Characteristics of the Principles

- formation and development of the ecological consciousness
- I - *Ego* transformation into I - *Eco*
