Marie-Claude Rivard, is a Professor at the Department of Physical Activity Sciences, University of Quebec at Trois-Rivieres, since 2003.

She holds a doctorate in physical activity intervention from Laval University, Quebec, Canada.

Her research focuses on: 1) Health Education in schools in terms of educational initiatives and collaboration; 2) Development and evaluation of skills (or competencies), most recently in the context of professional integration of teaching.

Marie-Claude Rivard conducted many studies funded in these two areas and published articles in scientific and professional journals.

Professor Rivard is member of the Research Laboratory on Education, Culture and Health: Interactions and Partnerships of the University of Quebec at Trois-Rivieres. She is also a regular member of the Center for Research and Intervention Regarding School Success (CRIRES).
