Damian Knipe is a Research Officer at St Mary's University College Belfast. He graduated with a BSc in Social Psychology and Sociology from the University of Ulster in 1991 and later completed a MSc(Ed) in Computer Based Learning from the Queen's University Belfast in 1999. He is currently undertaking doctoral study in education (EdD) at the Queen's University Belfast.

Damian Knipe's main role involves assisting university management in the co-ordination and development of research within St Mary's University College Belfast.

Damian Knipe has participated in numerous national and international funded research projects within the field of education and has gained expertise in research methods, data analysis and report writing.

Damian Knipe has also achieved success in having papers published in internationally recognized research journals, and had an edited version of his Masters dissertation published in a journal.

Currently, Damian Knipe is a lead researcher in a project funded by the European Commission's Lifelong Learning Programme titled "Stimulating Science And Technology Competences Through Innovative Means For Teaching and Learning".
