Lex Stomp is dean of the department of teacher education for secondary education at Windesheim University of Applied Sciences. He is also director of the International Department Education at the School of Education within Windesheim.

First being a primary and a secondary school teacher in geography and after a career in lower vocational education Lex Stomp was appointed at Windesheim University. There he became senior lecturer in Geography and senior consultant in educational leadership and school development. In a European project with eleven partner universities from eight EU countries he developed a successful method called 'Scenarios for the Future of Education'.

He worked as dean of the teacher education department for primary education for 5 years, since 2005 he is working as dean of the teacher education department for secondary education at Windesheim.

At the conference, Lex Stomp and Marlies Rijbroek will present the paper: "The Future is Now (an innovative E-learning teaching design)".

Lex Stomp: MA Education in Geography.
