Randy Connolly is an Associate Professor in the Department of Computer Science and Information Systems at Mount Royal University in Calgary, Canada, where he has taught web development since 1997. His teaching specialties are web application development and technology and society studies. His most recent books are Fundamentals of Web Development (in preparation, Pearson Ed, 2014) and Core Internet Application Development with ASP.NET 2.0 (Prentice Hall, 2007), which has been translated into Chinese and Polish.

He is an associate editor for ACM Transactions on Computing Education and on the Editorial Advisory Board for ACM Inroads. He has been active with the ACM Special Interest Group on IT Education (SIGITE), and is currently the Communications Director for that organization; previously he served as the Conference Chair for the 2012 SIGITE conference in Calgary, and was the Program Chair for the 2011 SIGITE conference in West Point, New York. He has presented several papers on teaching web development and as served as a technical reviewer for one of the main textbooks in this area. He also has over 14 years of experience developing web sites for international clients, as well as over 16 years of corporate software development experience
