Olga Ivanova is a research fellow at the University of Salamanca (Spain).

She holds a Doctorate in Spanish Philology from the University of Salamanca (2011). Her research interests encompass issues relating to sociology of language, discourse analysis and new approaches to language teaching. Her most recent researches focus on sociolinguistic aspects of language acquisition in young children and adult learners.

Since 2011, Olga Ivanova is member of the University of Salamanca research team in the project Corpes XXI of the Spanish Royal Academy. Since 2009, she has been participating in projects for application of pluralistic approaches to language teaching with Salamanca Plurilingüe group from the Official School of Languages of Salamanca.

Olga Ivanova has taken part in a number of international conferences and has published papers about multilingualism, language policy and planning, language attitudes and language acquisition.
