

# Healthcare Language Learning Programme 2 - A Free, Online and Offline Learning Programme for Communication in English and German for Healthcare

Anișoara Pop GE Palade University of Medicine, Pharmacy, Science, and Technology of Târgu Mureș (Romania), Anca Colibaba GR.T.Popa University / EuroED Foundation (Romania), Lukas Merz Palacky University Olomouc (Czech Republic)

## What is HELP2?

- A follow-up project based on an award-winning HELP – Healthcare English Language Programme ([help-theproject.eu](http://help-theproject.eu)), holder of the 2017 European Language Label for its creative, innovative and outstanding achievements in the field of language learning and teaching;
- A free online and offline learning programme for effective communication in English and German in the healthcare setting;
- For anyone who wants and/or needs to improve their communication skills – foreign language skills and intercultural skills – for their professional development;
- A learning programme focused on the area of healthcare to prepare students for the challenges of the European workplace;
- Comes in English and in German language – the two most wanted languages in the European context;
- Modular structure with thematic areas based on healthcare specialties and professional skills;
- A powerful language-learning tool designed for formal and informal learning settings;
- Intended for classroom and individual learning, lifelong learning programmes, e-learning and blended learning courses;
- A modern tool making the most of digital technologies, multi-media, interactive content.

## What are the products of HELP2?

- 14 new modules in English covering selected healthcare areas, intercultural issues, communication and professional development;
- 10 modules in German including 7 on general healthcare topics and 3 on intercultural competence

The modules will be available as:

- Online platform in LMS Moodle;
- A mobile app for Android;
- PDF files for download;
- Print-ready book/e-book.

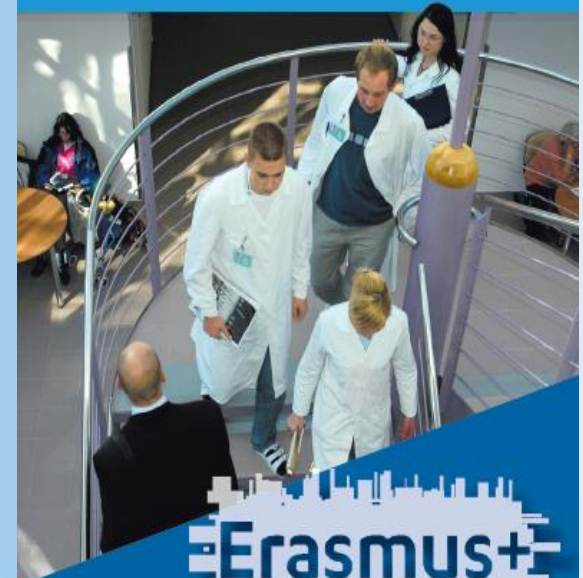

**FREE OF CHARGE**
