## Languages in Erasmus+

Multilingualism is one of the cornerstones of the European project and a powerful symbol of the EU's aspiration to be united in diversity. Foreign languages have a prominent role among the skills that will help equip people better for the labour market and make the most of available opportunities. The EU has set the goal that every citizen should have the opportunity to acquire at least two foreign languages, from an early age ("**Mother tongue +2**" – Barcelona Council, 2002).

The promotion of language learning and linguistic diversity is one of the specific objectives of the Programme. The lack of language competences is one of the main barriers to participation in European education, training and youth programmes.

## Languages in Erasmus+

## KA2 – Best practices

The selection of best practices under Erasmus+ aims to identify those projects which are considered particularly valuable to supporting policy aims in the fields of education, training, youth and sport as reflected in the objectives and priorities of the Programme.

Purpose of collecting and showcasing best practices is to:

- increase the impact of the selected projects,
- promote quality in education,
- allow DG EAC staff to acknowledge and further disseminate the activities supported and the results achieved by the Programme,
- use the selected practices to feed reflections and developments at policy level in DG EAC.

## KA2 – Best practices

- The selection will be conducted every year on the basis of a common set of qualitative and quantitative criteria (proposed by the Dissemination and Exploitation Steering Group and validated by the Task Force Directors).
- In the first 3 years of Erasmus+, the best practices will also be selected among projects realised under the previous LLP and YiA programme. These projects will be selected insofar they meet objectives and activity formats that are also intended to be supported under Erasmus+.

## KA2 – Best practices/Languages

The selection of best practices will be an important task of each National Agency in the field of Dissemination and exploitation of results (D&E).

Each NA will, on a yearly basis:

- identify "good practices" receiving a final score of 75% or higher at final project stage;
- among these projects, select a limited number of "**best practices**" satisfying specific criteria of quality, relevance, impact and sustainability.
- NAs are encouraged to continue to award the **European Language Label** in order to increase the visibility of innovative projects in the field of language teaching and learning. **ELL-awarded projects can be flagged.**

## KA3 – Awareness raising activities

- EDL events in the Member States (organised by Field Officers and Representations)
- Fairs and exhibitions (Expolangues, Expolingua, London Language Show)
