AI-Enhanced Assignments

Activities involving Smart Mobile Devices

Assignments involving **sound recordings** and **videos**

Staged assignments involving AI enquiries

Activité 2 : dialogue - chaîne

- Prepare your answer to the question

“Where would you like to go?”

- Take a minute to find the French name of the country that interests you, as well as **the preposition** (e.g. Google-translate « **to Japan, to Tokyo** » and click on  to hear the pronunciation). You will take turns answering.
- TA : – Où est-ce que tu voudrais aller ?
- Student 1: Je voudrais aller **en France, à Paris**. Et toi, où est-ce que tu voudrais aller ?
- Student 2: Je voudrais aller **au Portugal, à ---**. Et toi, où est-ce que tu voudrais aller ?
- Student 3: Je voudrais aller **en/au/aux ---, à ---**. Et toi, ...

- When the laser pointer comes to you, point to the country & answer the question : Et toi, où est-ce que tu voudrais aller ?
- Je voudrais aller **en/au/aux --- , à ---**.
- Repeat the question giving the pointer to the next student:

Staged assignments – C&R = Composition and Recording

- 1. Complete the sentences provided on the template
- 2. Check their correctness with MT (machine translation)
- 3. Consider the feedback provided by your TA
- 4. Ask AI « why the sentence is wrong? »
- 5. Participate in **individual consultations** to confirm your corrections
- 6. Record your composition
- 7. Analyse the feedback and participate in **individual consultations** so you do not repeat the same pronunciation mistakes

Nom : **Type your last name!** Prénom : **Type your first name!** Gender : M F **(delete one)**

Composition 0

Titre: **Give a French title to your composition** (Use Google Translate for the title)

1. Je me présente: je **suis** (+ your first name with the **CAPITALIZED last syllable** = stress)
 2. Je **suis** canadien/ne (use feminine or masculine form according to the gender on top) d'origine _____ (use feminine because « origine » is feminine).
 3. Je parle couramment anglais et _____ (+another language without article)
 4. J'apprends le français et j'**étudie** (+ your specialisation with definite article – le, la, or les)
 5. J'aime **étudier** ... (+ your favourite subject with definite article or le français 😊) et j'**adore** ... (add a noun with a definite article « les chats » or a verbal expression « jouer au football » « jouer du piano », use <https://www.collinsdictionary.com/dictionary/english-french>)
- **Helpful video: How to introduce yourself:** <https://www.youtube.com/watch?v=WskszsbwG9w>
 - Delete all red and blue instructions and prompts.

AI and Text analysis (History of French)

- Prompt: "What are the syntactic functions of words in "Ja nuls om pres ne dira sa razon"?"
- **Full Breakdown:**
 - **Subject:** *Nuls om pres* ("no captive person")
 - **Verb:** *ne dira* ("will not say")
 - **Direct object:** *sa razon* ("his/her reason")
- Thus, the syntactic structure translates as: "No captive person will ever say his/her reason."

In the assignment, students underline or circle each word in the text according to the instructions:

Ja nuls om pres ne dira sa razon

AI-Proof Evaluation

- Giving more weight to formative assessments
- AI-proof summative assessments - videos
- AI-proof questions in exams
- (nothing is 100% proof outside the classroom)

Exams on Exemplify or ExamSoft

Drag & drop or click to attach a file.

Total size of the attachment (including embedded images) cannot exceed **200 MB**

Supported File Types and Maximum File Sizes

- **Images:** GIF, JPG, JPEG, PNG = 3 MB Max (Max Resolution is 1920x1080 pixels)
- PDF = 20 MB Max
- RTF = 5 MB Max
- **Audio:** MP4 (audio), MP3 = 15 MB Max
- **Video:** AVI, MOV, MP4 = 150 MB Max

- Listen to the sentence. 

- Type the verb you hear in this sentence (works for difficult irregular verbs)
- Type the polite version of the question you hear

AI-enhanced language courses

- The best formative assessments combine **theoretical understanding and practical skills (TAP approach)** and require use of AI and ICT.
- This TAP approach means **more linguistic theory and terminology** in language courses & more practical tasks in theory courses.
- The best **AI-proof questions** in the **summative assessments** are based on the **course content** and include **non-textual components** (e.g., pictograms, images, recording and videos studied in the course).
- To offset tech problems, it is a good idea to offer **bonus points for SMD activities** (e.g., Duolingo) or AI-tips shared in **online discussions**.
