# HCI: Agility and Innovation in Education

1. Skills needs for enterprise
2. Future proof graduates - emerging technologies
3. Transversal Skills
4. Reform and innovate- build on best practice nationally / internationally

# Pilot REEdI Programme: BEng/MEng in Manufacturing Engineering

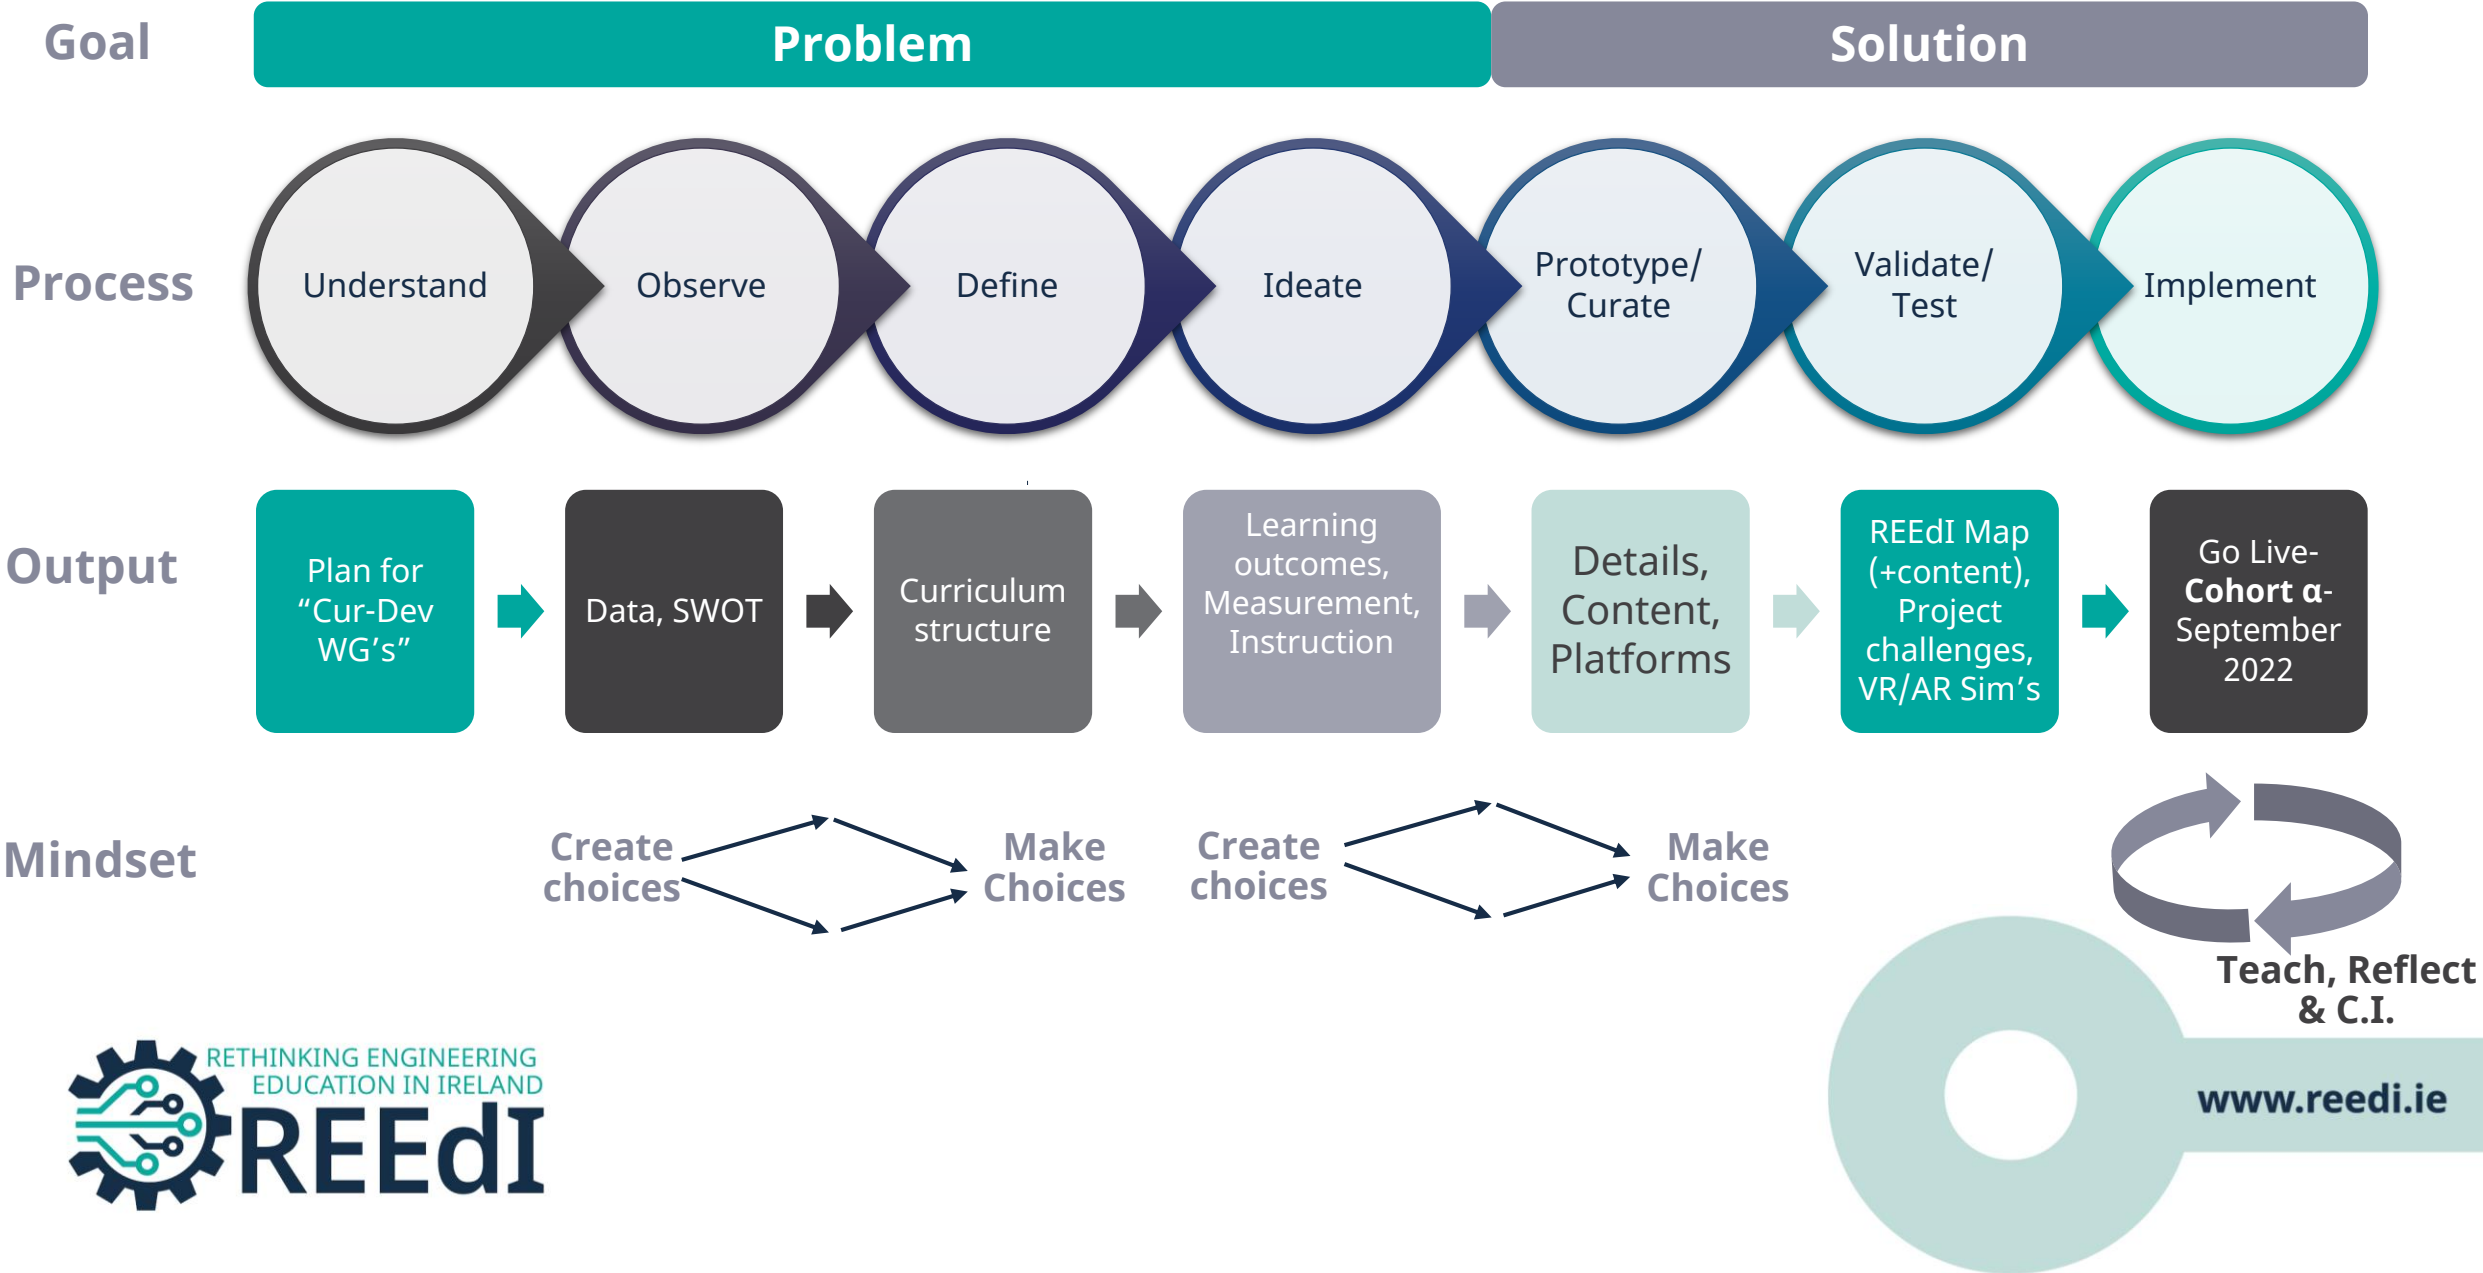

# The REEdI Framework

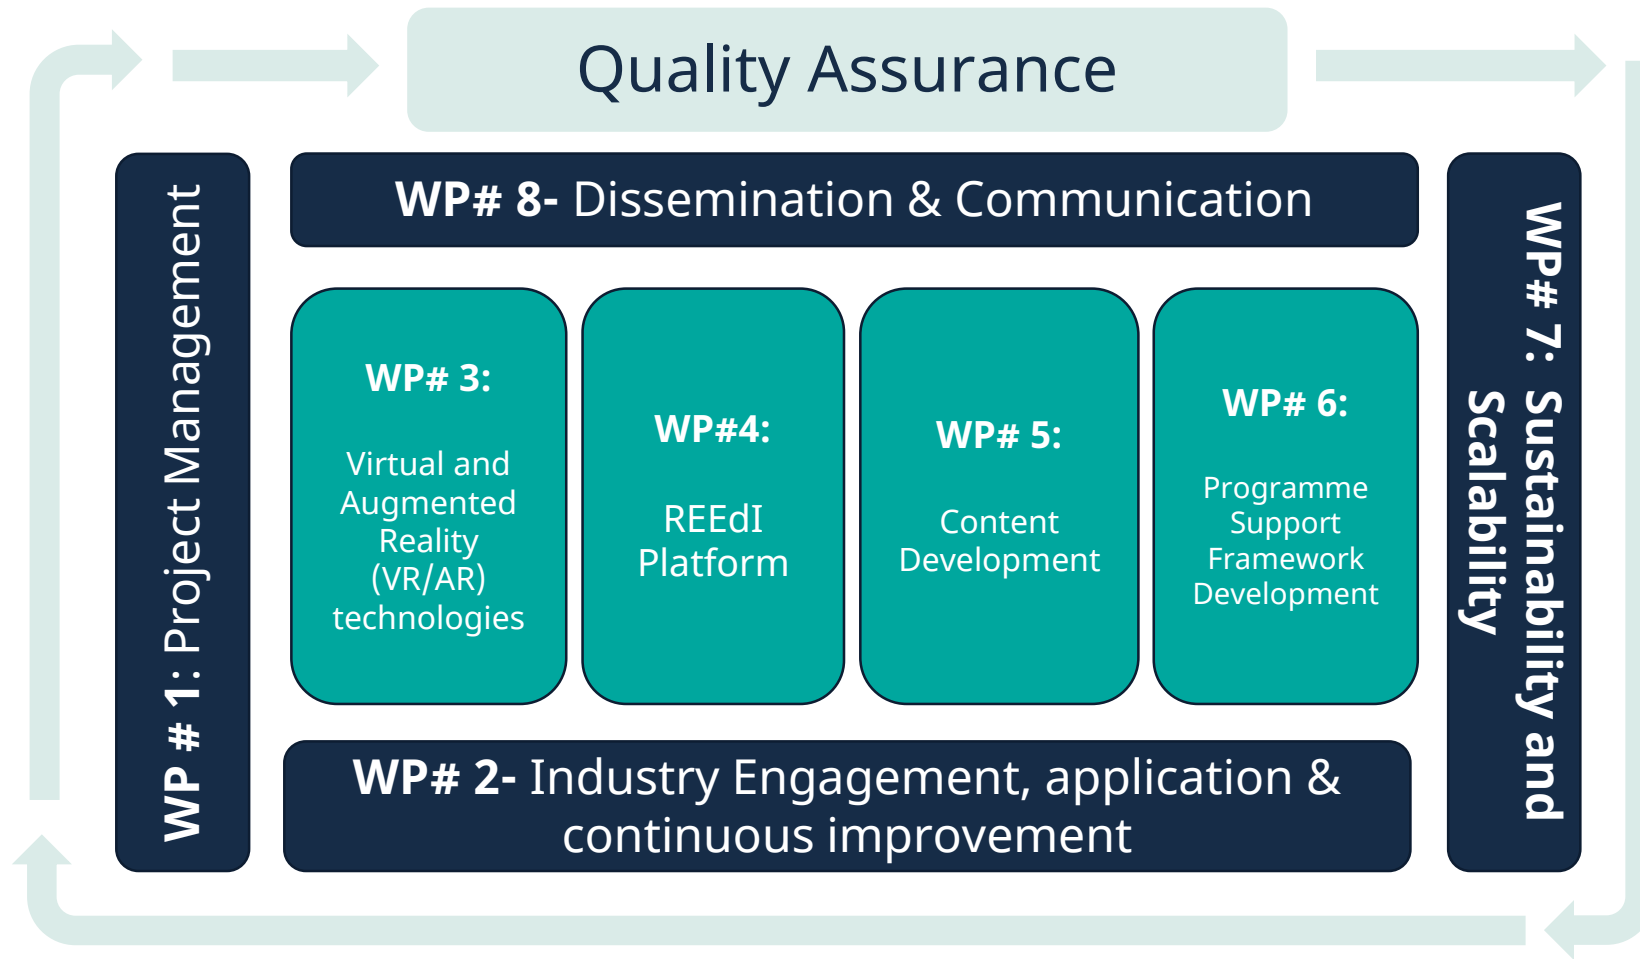

Building on the CSU model-  
 The REEdI approach enables a student engineer to identify **what they need to know** [ REEdI Learning Map (Pillar3) & Performance Planning (Pillar2)]; **how they are going to learn it**; and how they will **demonstrate competency** [Pillar1 Project Centric].

# REEdI- Design Thinking

# REEdI- Work Packages

# REEdI- Virtual & Augmented Reality technologies

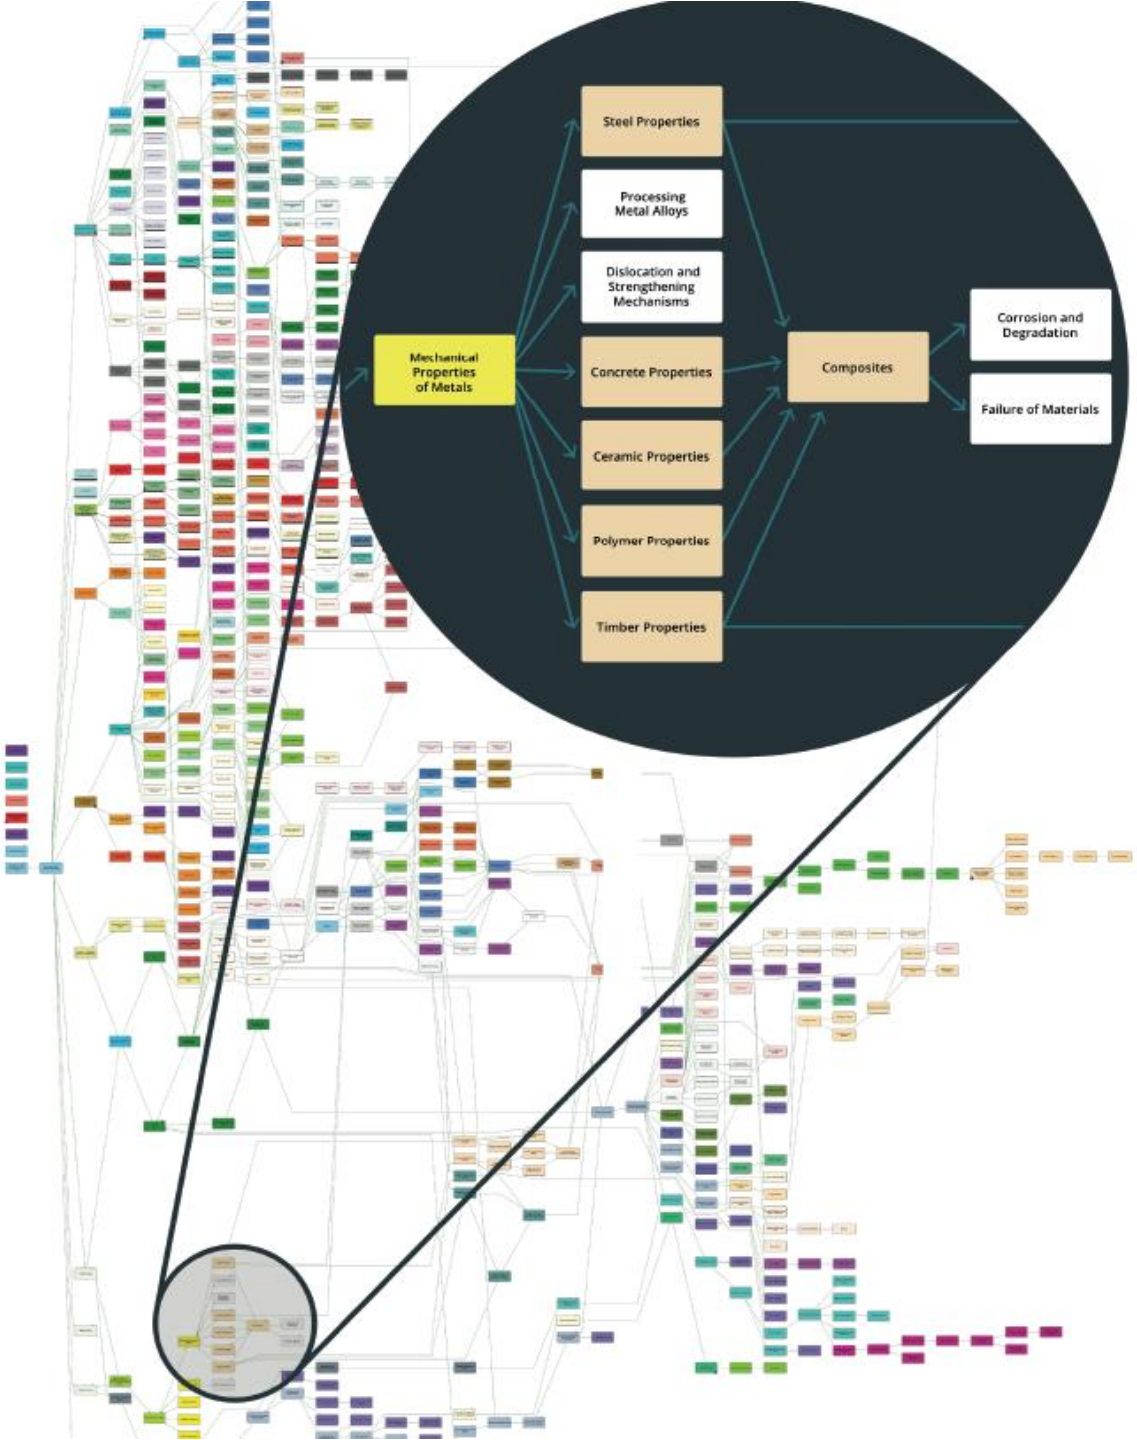

# The REEdI Learning Map

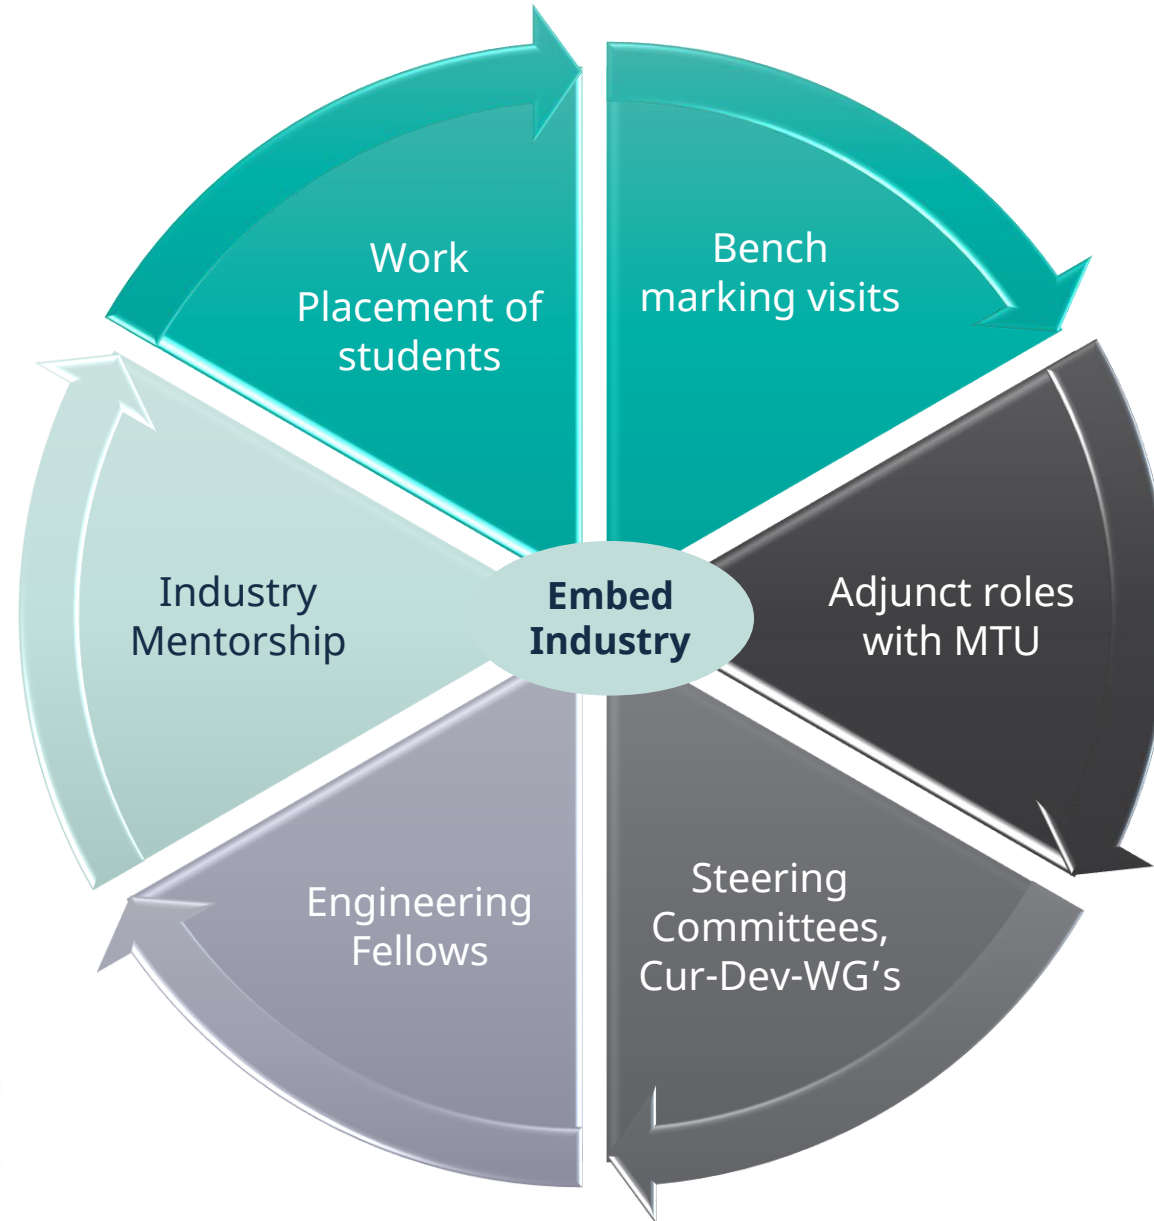

**Professor Euan Lindsay**- Adjunct Professor of Engineering CSU NSW  
AUS- *Regional University*  
<https://www.youtube.com/watch?v=QOfSj7XcKAI>

# Industry Engagement: Co-designed, Co developed and Co-delivered

***“Michelangelo didn’t attend a semester of lectures; he learned in the studio with a master looking over his shoulder”***

Professor Sanjay Sarma, Director of the Office of Digital Learning, M.I.T.

# THANK YOU!
