

Tips for the Speakers

PREPARATION OF THE PPT PRESENTATION

- Please consider that you should have one to two slides for every minute of your presentation so you are advised to prepare 20 to 30 slides maximum.
- You should limit the amount of text on slides. The suggested amount of text per slide is no more than 5 - 10 words per sentence and 5 lines per slide.
- Use symbols or images instead of texts as often as possible so as to provide visual clues for the audience.
- You should avoid complicated charts and graphs (they can be included in the paper that you will have submitted).
- To ensure that slides are legible it is best to use nothing below 18pt font, 24pt font is recommended.
- Make sure to use spell check.
- You should start your presentation highlighting its objectives and end it, summarizing it.
- Try to make sure that the contents of your presentation are compelling and engaging.
