Abstract

Online language teaching is come into prominence day by day. Many kinds of virtual classrooms are being used for online language teaching. Vocabulary acquisition and the methods are important parts in language teaching. Also the usage of vocabulary acquisition methods is necessity in virtual classrooms. Anadolu University prepared Turkish Language Certificate Program (TSP) as an online teaching program. In this program tutors can use materials such as pictures, whiteboards, comics etc. at synchronous lessons in virtual classrooms. This paper deals with Turkish language tutors' gained experiences about using visual materials for vocabulary acquisition.
