Dermot F Campbell has over 30 years' experience teaching German and has been Head of the Dept. of Applied Languages at DIT for 17 yrs. He was co-proposer in over €2 mio. worth of language-related grants at Irish and EU levels and has presented on speech/corpus topics at BAAL, EuroCALL, IATEFL, IVACS, MATSDA and TISLID. He has supervised 3 students to PhD level in the area of corpus linguistics.

His expertise lies in multi-disciplinary research projects applying speech technologies to language learning and he is currently involved in constructing a Dynamic Speech Corpus. He also produced the first quality-assured distance learning translation programme in DIT. He has worked on the FP6 SALERO project, the Enterprise Ireland-funded CHIPS project and is currently Principle Investigator on the EU Lifelong Learning projects FluenCi and ChAT.
