Juergen Friedrich is a Professor of Computer Science and Digital Media at the University of Bremen (Germany).

He graduated in Information and Communication Technology from the Technical University of Aachen (Germany) in 1962, and in Social Sciences – Economics from the Free University of Berlin (Germany) in 1979.

He worked as Research Assistant at the Free University of Berlin (Institute of Sociology) and later at the Technical University of Dortmund (Faculty of Computer Science). Since 1986 he is a Full Professor at the University of Bremen (Chair Applied Computer Science). He was a Guest Professor at Keio University, Tokyo, Japan. Since seven years he is a Visiting Professor at Guangdong University of Technology, Canton, China.

Juergen Friedrich is an expert in Digital Media, e-Learning, Usability Engineering and Knowledge Management. He is active in a number of European research projects. At present, he participates in the international MAGICC project ("Modularising multilingual and multicultural academic communication competence for BA and MA level") with 10 partners from nine European countries. In this project he is responsible for the application of ePortfolio methodologies and systems for language learning.
