Olaf Herden is professor for Applied Computer Science at Campus Horb of the Cooperative State University Baden Wuerttemberg.

He graduated in Computer Science from the University of Oldenburg in 1996. Afterwards he was researcher at OFFIS – Institute for Information Technology. He received his PhD from University of Oldenburg in 2001. Topic of his thesis was a design methodology for data warehouses. In 2002 he joined Cooperative State University Baden Wuerttemberg as professor for computer science.

Olaf Herden holds lectures in the bachelor course of studies about algorithms and data structures, compilers, database systems and data warehouses.
