Dr. Chiara Laici, PHD, she is researcher in the FIRB project, coordinated by Prof. Paolo Paolini named: L4A (ALL CAN LEARN): a multiparadigm, multichannel and innovative approach to education.

During the academic years, she has teaching assignments "Laboratorio di educazione allo spazio e al tempo" and "Laboratorio informatico" (University of Macerata, Faculty of Education Sciences).

She collaborates in the CI@ssi 2.0 national project, classes of Umbria Region.

She is administrator and e-tutor of blended e-learning platform MOODLE with involving students enrolled in the courses.

She is member of SIPED; SIE-L, SIREM.

She was part of a national research program COFIN 2003 on "e-learning in university education", as the local research coordinated by the University of Trento on the "e-university: the ICT as an agent of change in Italian universities

She was part of the Program of Research (PRIN 2006) on "Development of educational features in open source platform for e-learning", coordinated by Prof. Roberto Maragliano, deepening, as head of the Scientific Research of the University of Perugia, into the theme: Learning Communities and communities of practice in open source platform for the training of future teachers.
