Léa Pasqualotti is a PhD Student in Cognitive Psychology at CHART, University of Paris 8.

She graduated in Cognitive Psychology and Ergonomics from the University of Nice in 2010. During her MA, she specialized in the field of Information and Communication Technologies.

Léa Pasqualotti is working on electronic reading and visual exploration strategies for her thesis.

As a junior ergonomist, she is working on 2 projects at LUTIN. The first one, called SOLEN, is about e-reader and e-books. The second one concerns the evaluation of reading on digital whiteboards and is the purpose of the present article.
