Teresa Gallego Navarro is a professor at the Mechanical and Construction Department at the Jaume I University.

She graduated in Arquitectura Técnica at Politechnic University of Valencia in 1992. Since then she has constantly been working in the field Building environment.

She postgraduated in European Construction Engineering at the Cantabria University in 1997. Since then she got expert on Quality Management Systems for the Construction Sector.

Teresa Gallego Navarro is been teaching these matters at the School of Arquitectura Técnica at the Politechnic University of Valencia (UPV) and at the School of Technological and Experimental Science School at the Jaume I University (UJI).

Teresa Gallego Navarro have participated in different Postgraduate courses in different Universities concerning Quality Management Systems and Integrate Management Systems.

A part of teaching Teresa Gallego Navarro have been in charge on management duties in both Schools at the UPV as International Subdirector and at UJI as a Vicedirector of the Building Engineer degree.

The management duties have provided skills on developing students programs and implementing new teaching methodologies.
