Tatjana Kovac is the lecturer of business informatics and vice dean of the Faculty.

She graduated in Organizational Science – the field of information systems from the University of Maribor in 1996, got master degree in Management of information systems - the field of Decision support systems from the same University in 2002 and Phd. degree in Pedagogy from the University of Ljubljana, Faculty of Art in 2008. She has a lot of work experiences in business and has been working more than 17 years as a teacher.

Tatjana Kovac is an expert in the decision process modelling and decision support systems. She is involved in many quality management projects at the Faculty. She has developed the expert model of assessing the quality in high schools and faculties (the so called self-evaluation system).

So far Tatjana Kovac often attends different International Conferences to present her experiences. She is also the peers' trainer in the field of information systems and in using new computer programs.
