Jana Pletnicka is a lecturer at the Faculty of Civil Engineering of VSB-TU Ostrava.

She graduated from the Technical university in Brno, CR as an architect in 1967. Before she started teaching Urban Planning at the VSB-Technical University of Ostrava in 1997, Jana Pletnicka had worked as urban planner with the City of Ostrava and Frydek–Mistek. In 2004 she finished her doctoral study with the dissertation thesis on the topic on Brownfields of Industrial City in Transition. Jana Pletnicka worked on several research projects on brownfields regeneration, was a member of leading group of the Leonardo da Vinci Lifelong Educational Pilot Project on Brownfields - LEPOB in 2004/2006, the subsequent BRIBAST project, and currently is involved in Leonardo da Vinci educational project BROWNTRANS.
