Alessandra Zanazzi has a Master Degree in Physics (Astrophysics). Since 1996 she is working in the field of education and communication in Astronomy and Science.

For fourteen years she has worked for Fondazione IDIS – Città della Scienza (the main Italian Science Centre), where she's been Responsible of Planetarium and education and communication activities in Astronomy. She has written many planetarium shows, and she's been organizing many education and laboratory activities, teachers' training, conferences and events. Also she collaborated in design of many science hands on exhibitions (on Astronomy, Environment, ...).

She has been involved in writing and carrying out many European Projects about science education and communication. In particular, she's been international project leader of the Leonardo Da Vinci "Communication in Science" project (ended in 2008) and of "TIME for Nano" (EU FP7- NMP-2008-CSA-2).

Since 2010 she collaborates with INAF – Osservatorio Astrofisico di Arcetri, where she is National Project Manager of the EU-UNAWE project (EU FP7th).

She participates in Science Festivals and events, carrying out conferences, planetarium shows, science activities with children.
